Anna O'Kelly, Council Treasurer,  
1411 Knights Bridge Turn, Crofton, MD 21114

**Make Checks payable to:** FGCMDC GCC  
**FGCMDC-Gardening Consultants Council**

\*\*\*\*Any special needs or diet restrictions? If so, please provide details:

## Objectives of Gardening School

All gardeners can become accomplished horticulturists. To assist its members in achieving this goal, National Garden Clubs created the Gardening Schools; a school is a series of four courses designed to:

- Stimulate interest in the growth of plant materials to their peak of perfection; give the student an understanding of how and why a plant grows.
- Teach soil structure and methods for making the soil more productive.
- Provide an understanding of plants' reactions to certain weather conditions and how to modify these conditions to encourage optimum growth.
- Provide an understanding of commercial and natural fungicides and pesticides, growth regulators, and other chemicals used in general horticultural procedures
- Illustrate methods for rapid propagation.
- Offer plant identification instruction.
- Explore growing techniques for garden plants, vegetables, fruits, houseplants, trees, shrubs, and specialized styles of gardening.
- Develop a respect for and appreciation of plants and their roles in our lives and activities.

***Gardening Schools are open to everyone  
whether or not they are garden club  
members.***
